PROGRAM DESCRIPTION

The One-Year Program in Interior Design is a comprehensive and immersive educational experience designed to empower students with the knowledge and skills required to excel in the world of interior design. Throughout the program, students learn about the principles of design, spatial planning, color theory, and materials selection. They engage in hands-on projects and exercises that allow them to apply these principles to real-world interior design challenges, honing their ability to create functional, aesthetically pleasing spaces that meet the needs and preferences of clients. In addition to mastering the art of design, students also gain valuable expertise in project management, a crucial aspect of bringing interior design visions to life successfully.
